

# Soap & Such Classes

**Melt & Pour Class** Beginner's class with no lye involved. We will be using an all natural soap base then adding "goodies" to the base to make your own signature bar. You will be taking home 4 bars of soap plus a mold. You can make a gift-worthy 4oz bar of all natural beautiful healthy soap for less than .80 a bar. Cost for materials, booklet & class = \$25 Mar 17th @ 10am, Mar 31st @ 2pm, Apr 14th @ 10am

**Lotion Class** This class will also be using a base then adding goodies. You will also be taking home a bottle of your own creation. Cost for materials & class = \$10. (only \$5 if taken with soap class) Lotion class is held after soap classes

**Basic Lye Soap Class** You will make soap from scratch. We will go over the various properties of different oils to use, the safety steps and a couple of different techniques on creating lye soap. You will be making and taking home a 16 bar batch of wonderful bath soap. Cost is \$50 Mar 17 @ 2pm, Apr 14 @ 2pm, Apr 28 @ 10am

**Goat's Milk Soap Class** You will make the ultimate in a moisturizing bar of soap. You learn how you have to work differently with goat's milk to make a beautiful creamy soap & will be taking home a batch of 16 bars of soap. Cost for class is \$45 (basic lye soap must be taken prior) March 3rd @ 10am, April 28th @ 2pm

**Liquid Soap Class** This class is for liquid soaps for hand pumps, in the shower, shampoo or even use as laundry soap. You must have taken the basic lye soap class as we will get right into soap making as this does take a while. This liquid soap will not be clumpy or gel-like but be a true smooth liquid. I will have two recipes available, depending on what you want to use the soap for. This is more involved & is again working with lye. Cost for class, materials and booklet is \$45

**Laundry Soap** This class is the basic laundry soap recipe made not using lye from scratch. It is not going to be as smooth as the above liquid soap but it is a lot easier. It will be a sort gel type laundry soap & can be used in a front or top load washer. You make 5 gal. of concentrate which makes 10 gallons of soap that you use at a 1/4 cup per load rate. The 5 gallon bucket with a gamma lid for easy opening will be included in the cost of the class. Cost for class, materials & booklet is \$35.

**Please call for more info & reservations on the above classes-They are all hands on & class size is limited.**

**Girls night out, birthday party, Red hat club?**

**We have special group discount pricing**

Classes coming up- canning, advanced lye soap, advanced melt & pour, bath salts & fizzies & candle making. I will do classes for those who wish to take a special class together. I will gladly discuss dates and times to accommodate your needs and size of groups needed for the type of class. There have also been inquiries into youth type events - I have had groups of 14 & under without problems as long as some adult supervision is present. Children really enjoy making their own soap to use or give to others as gifts.
